**Mechanics' High Grade
TOOL CASES**

Dayton, Ohio, U. S. A.

Cut shows Style No. 18 closed. There is NO Trade-Mark or Name Plate on the outside of any "Gerstner" Case or Chest.

INTRODUCTION

THE following pages show a selection of Portable Tool Cases, which have long been recognized as the standard for superior workmanship, material and design. Some years ago, when our first pamphlet was issued, we made quality our strong point, and this holds as true today as it did then. Since we originated the "Gerstner" Portable Tool Case—like all articles of merit—it has been flattered by cheaper imitations. Our aim is not to give you a cheap article, but the best value for your money, and we are proud of the fact that not in a single instance have we heard of a better built, a neater, more practical and compact Tool Case. We employ skilled workmen who have devoted years of their time in perfecting our line of Cases and Chests, and with the best materials that money can buy at their command, we are enabled to give you a Tool Case that beats anything ever offered to the up-to-date mechanic.

Gerstner Cases are correctly proportioned, handsomely finished, light in weight, yet very substantial in every detail. They pay for themselves many times over, and the price is small compared with the real value in saving tools from damage, and the many years of service and satisfaction they will give. The convenient arrangement of drawers afford a place for every tool, orderly arranged and easily picked out when wanted.

We build styles not shown in the booklet, also make Special Cases to order, and want you to write us if you don't find exactly what is wanted. In view of the care given to the manufacture of "Gerstner Cases, the confidence we have in the quality of our product leads us to place with you the guarantee on the last page, which backs up every Case we sell.

The details of the "Gerstner" Tool Cases comprise the qualities which are essential to a high-grade product.

FRAME OR BODY—Covered Cases constructed of thoroughly seasoned, laminated three-ply basswood and poplar. Quartered Oak Cases made of selected stock. Corners are dove-tailed, glued and rounded, which insures the most durable construction and a Case that will “stand up” under any condition.

FINISH—The best quality of imitation black seal grained leather is used on the standard Cases, which is very neat and serviceable. Our Cases are handsomely creased and there are no raw edges to start loose. The morocco, brown or green Spanish is furnished at a small additional charge. The Quartered Oak Cases are regularly finished in English Oak, nicely polished and rubbed. We also finish in Golden or Mission Oak.

DRAWERS—Lock cornered and glued, shellac finished and the bottoms covered with heavy green felt. The small drawers have sheet metal bottoms and the large drawers three-ply birch bottoms. The fronts are nicely finished, beaded, have polished knobs or flush rings. Drawers work with ease on hardwood slides and have stops to prevent them dropping out.

FITTINGS—We furnish trimmings in harmony with the design. Solid brass polished, either lacquered or nickerled.

LOCKS—All Cases are equipped with a strong, brass cylinder snap lock, having two flat steel keys, (each lock has different keys).

HANDLES—The grip handles are of leather to correspond with the finish and design of the Case.

LIDS—All lids are well paneled and will not warp or twist.

SPECIALS—We build Cases and Chests to order. Any style can be changed to suit your purpose and finished in natural wood or covered. Prices quoted on request.

Price \$9.00

Style 18

A NEAT and compact Portable Tool Case that meets the requirements of the mechanic who uses small tools and desires a small case. The outside measurements are 14" long, 8 $\frac{1}{4}$ " high, 8" deep. It is covered with the finest quality of black imitation seal grain leather and fitted with polished brass trimmings. The lid has metal pins which fit into metal sockets, contains a mirror on the inside and may be placed on the Case or hung up when opened. This Case is also furnished with our patent sliding lid.

The drawers are handsomely finished in quartered oak, are lined on the bottoms with felt and run on hardwood slides. All wood is shellac finished. We furnish a snap lock with two flat steel keys, and a neat leather handle, either flat or round. The inside measurements of the five drawers are as follows:

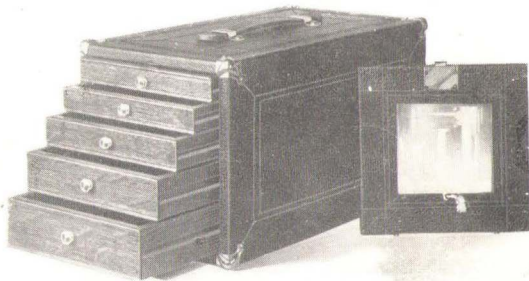

First		12 $\frac{1}{4}$ " long, 6 $\frac{1}{8}$ " deep, $\frac{3}{4}$ " high
Second		12 $\frac{1}{4}$ " long, 6 $\frac{1}{8}$ " deep, 1 " high
Third		12 $\frac{1}{4}$ " long, 6 $\frac{1}{8}$ " deep, 1 $\frac{1}{8}$ " high
Fourth		12 $\frac{1}{4}$ " long, 6 $\frac{1}{8}$ " deep, 1 $\frac{1}{2}$ " high
Fifth		12 $\frac{1}{4}$ " long, 6 $\frac{1}{8}$ " deep, 1 $\frac{7}{8}$ " high

Style 15

A. Gerslner & Sons.
DAYTON, OHIO

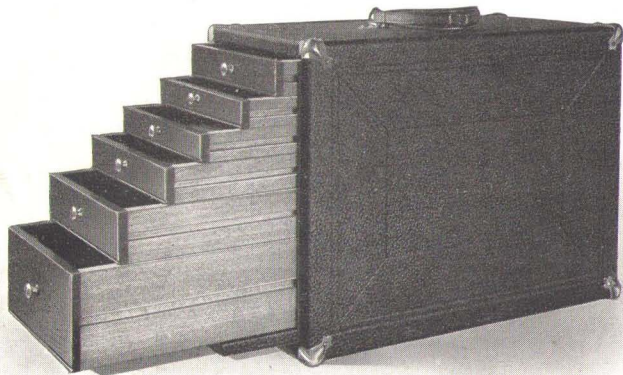

THIS Portable Tool Case is about the same as No. 18, with the exception of the drawers pulling out from the end. It is substantially constructed, covered with the best imitation seal grain leather and fitted with polished brass trimmings. The lid is removable and contains a mirror. The drawers are handsomely finished in quartered oak, mahogany or cherry, felt-lined, beaded and shellac finished throughout. This Case measures $14\frac{1}{4}$ " long, $8\frac{1}{4}$ " high, and 8" wide, and is equipped with a spring lock having two steel keys and a neat leather handle, either flat or round. The drawers measure as follows on the inside:

- 1st ... $12\frac{1}{4}$ " long, $6\frac{1}{4}$ " wide, $\frac{3}{4}$ " high
- 2nd ... $12\frac{1}{4}$ " long, $6\frac{1}{4}$ " wide, $\frac{7}{8}$ " high
- 3rd ... $12\frac{1}{4}$ " long, $6\frac{1}{4}$ " wide, $1\frac{1}{8}$ " high
- 4th ... $12\frac{1}{4}$ " long, $6\frac{1}{4}$ " wide, $1\frac{1}{2}$ " high
- 5th ... $12\frac{1}{4}$ " long, $6\frac{1}{4}$ " wide, 2 " high

Price \$9.50

Style 25

THIS Portable Tool Case meets the requirements of the average tool maker and machinist who wants a Case that opens from the end. It is equipped with our patent self-hinging lid which slides in under the bottom drawer. The drawers are handsomely finished in Quartered Oak or Cherry, are felt-lined and shellac finished throughout. This Case is covered with the finest quality of black imitation seal grain leather, fitted with polished brass or nickeled trimmings, has a cylinder snap lock with two steel keys and a comfortable round leather handle. The outside measurements are $15\frac{1}{2}$ " long, $11\frac{1}{4}$ " high, 8" wide. The drawers measure as follows on the inside:

	Long.	Wide.	High.
First	$13\frac{1}{4}$ "	$6\frac{1}{4}$ "	$1\frac{1}{8}$ "
Second ..	$13\frac{1}{4}$ "	$6\frac{1}{4}$ "	$\frac{3}{4}$ "
Third	$13\frac{1}{4}$ "	$6\frac{1}{4}$ "	$\frac{7}{8}$ "
Fourth ..	$13\frac{1}{4}$ "	$6\frac{1}{4}$ "	$1\frac{1}{8}$ "
Fifth	$13\frac{1}{4}$ "	$6\frac{1}{4}$ "	$1\frac{3}{4}$ "
Sixth	$13\frac{1}{4}$ "	$6\frac{1}{4}$ "	$2\frac{1}{2}$ "

DAYTON, OHIO

A MACHINIST'S Portable Tool Case which we make in different lengths. It is built first-class in every detail and covered with the best quality of imitation black seal grain leather (very neat and serviceable). This Case is equipped with a pivot swinging lid, or we can furnish a removable lid or a sliding lid with tray like style No. 31. The drawers are high grade in every respect, have felt covered bottoms, brass polished or nickeled knobs and run on hardwood slides. All wood on the interior is shellac finished. A good cylinder spring lock with two steel keys and a comfortable round handle is furnished. The standard size measures 15" long, 10 $\frac{3}{4}$ " high and 8 $\frac{1}{2}$ " deep on the outside. The inside dimensions of the drawers are as follows:

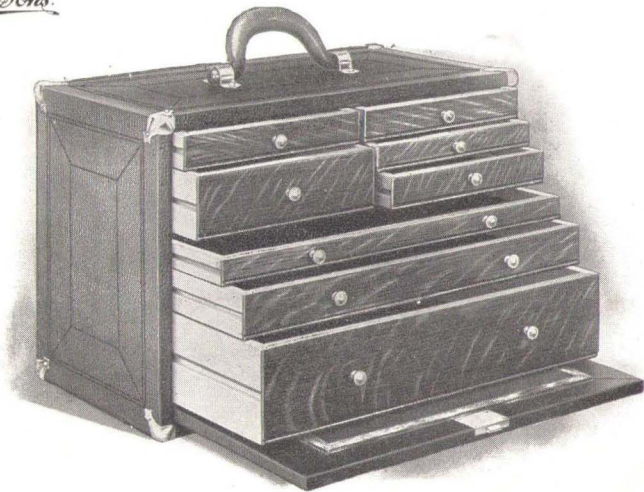

First	13 $\frac{1}{4}$ " long.	6 $\frac{1}{4}$ " deep,	1 $\frac{1}{8}$ " high
Second	13 $\frac{1}{4}$ " long.	6 $\frac{1}{4}$ " deep,	$\frac{3}{4}$ " high
Third	13 $\frac{1}{4}$ " long.	6 $\frac{1}{4}$ " deep,	1" high
Fourth	13 $\frac{1}{4}$ " long.	6 $\frac{1}{4}$ " deep,	1 $\frac{1}{4}$ " high
Fifth	13 $\frac{1}{4}$ " long.	6 $\frac{1}{4}$ " deep,	1 $\frac{7}{8}$ " high
Sixth	13 $\frac{1}{4}$ " long.	6 $\frac{1}{4}$ " deep,	2 $\frac{3}{4}$ " high

Style 31

OUR "Standard" Portable Tool Case for Tool Makers and Machinists. The convenient arrangement of different sized drawers afford a place for every tool, and this is the best built, the neatest, most practical and compact Tool Case ever offered to the up-to-date mechanic. It contains all our latest improved features, which puts this Case in a class by itself. This Case is made in different lengths, the 20" size taking in an 18" scale. It is substantially constructed of the very best materials that money will buy, and covered with the finest quality of black imitation seal grain leather. The drawers are handsomely finished in quartered oak, lock cornered, have polished brass knobs and are shellac finished throughout. The small drawers have sheet metal bottoms and the long drawers three-ply birch bottoms, all bottoms felt-lined. This Case is equipped with our patent self-hinging lid, which has a felt-lined tray to lay tools on. This lid slides in under the bottom drawer and out of the way if desired. We furnish a good cylinder spring lock, having two flat keys, also a comfortable reinforced leather handle. The trimmings are of brass, either polished and lacquered or nickered. This Case weighs approximately 12 pounds complete. The dimensions are as follows:

Style No.	Outside Dimensions			Drawer Inside		Inside Height of Drawers								Price
	L'gth in.	Height in.	Depth in.	Length in.	D'pth in.	1st in.	2nd in.	3rd in.	4th in.	5th in.	6th in.	7th in.	8th in.

Price \$11.50

THIS eight-drawer Portable Case meets the requirements of toolmakers who desire a Case smaller than our No. 31. The outside measurements are 15" long, 10½" high, 7¾" deep. We usually equip this style with a self-hinging sliding lid as shown with our No. 31, and we also recommend a round handle. This case is covered with a neat and serviceable black imitation seal grain leather. This covering wears a life-time, can always be kept clean with a damp cloth, and our method of constructing covered Cases leaves no raw edges to start loose. All trimmings are solid polished brass either lacquered or nicked. The drawers are finished in nicely polished quartered oak or cherry, felt-lined and run on hard-wood slides. The dimensions of the drawers are as follows:

1st	6 "	long,	5½" deep,	1½" high
2nd	6 "	long,	5½" deep,	1½" high
3rd	6 "	long,	5½" deep,	1 " high
4th	6 "	long,	5½" deep,	¾" high
5th	6 "	long,	5½" deep,	1 " high
6th	13¼"	long,	5½" deep,	7/8" high
7th	13¼"	long,	5½" deep,	1 5/8" high
8th	13¼"	long,	5½" deep,	2 3/4" high

DAYTON, OHIO

ANY style Case or Chest shown in this booklet is furnished in selected Quartered Oak, either Golden, English or Mission Finish (prices quoted on request). The Case illustrated is exactly like No. 31 in design and measurements. The corners are neatly dovetailed and rounded, and the front is paneled. It is finished with oil stain, two coats of fine varnish, rubbed and polished. The panel on the inside of the lid forms a felt-lined tray, which may be used to lay tools on, or the lid can be shoved in under the bottom drawer and out of the way. The lid is self-hinging and slides on steel rollers. We furnish a brass cylinder snap lock with two keys and a comfortable leather handle to match the finish of the Case. Unless otherwise ordered we furnish Quartered Oak Cases in the English Oak finish. This is neither too light nor too dark. The dimensions are the same as style No. 31 on the preceding page.

DAYTON, OHIO

THIS nine-drawer Tool Chest appeals to the mechanic who carries an exceptionally large kit of tools. It is made in any desired length, the 26" size will take in a 24" scale.

This Chest is strictly "Gerstner" Quality in every detail, made of the best materials and covered with a neat and very serviceable imitation leather. The drawers are nicely finished in quartered oak, have polished brass knobs, bottoms felt-lined and are run on hardwood slides. All trimmings are of heavy brass, polished and lacquered. Our patent roller-bearing, self-binging lid slides in under the bottom drawer, has a felt-lined tray on the inside and closes with a strong brass cylinder spring lock. For a large, practical Chest this beats anything offered to the "man who cares." The dimensions of the three most popular sizes are:

Style 50

THIS style meets the demand for a low-priced, yet neat and substantially built Portable Tool Case. It is covered with a serviceable black imitation leather that can be kept clean with a damp cloth, fitted with brass trimmings, and the lid is self-hinging with steel pins that slide in a groove. The drawers are stained Cherry, Mahogany or Walnut, polished and rubbed, have flush ring pulls and slide on hardwood runs. A good cylinder lock with two steel keys and a round leather handle is furnished. This Case weighs approximately 10 pounds complete, and having a convenient arrangement of both short and long drawers, this style meets all requirements. There's a place for every tool, orderly arranged, and no up-to-date mechanic can afford to be without this low-priced Case. The dimensions are as follows:

DAYTON, OHIO

THIS CHEST is very popular among draftsmen. The outside measurements are $13\frac{1}{2}$ x 9 x 6 inches. It makes a very attractive chest, being covered with buffing and fitted with highly polished trimmings. The tray, of which the bottom is felt-lined, is properly partitioned, and can be placed on the drawing table with the necessary tools. The space under the tray measures $12\frac{1}{2}$ x 8 x $3\frac{1}{2}$ inches. This case is neatly and carefully constructed, and we furnish a block to hold three ink bottles, a mirror on the inside of the lid, ornamental brass hinges and lock.

Price \$4.00
